

DEUTZ F3L1011 W/ 15KW GENERATOR

RAINBOW

IRRIGATION GENERATOR SETS

DEUTZ AIR-COOLED DIESELS

**5.0KW TO 25KW
THREE PHASE, 480 VOLT**

IRRIGATION GENERATOR SETS - 5 KW TO 25 KW - GEN SET OPTIONS

Rainbow Manufacturing Company offers a complete line of generator units for irrigation power. Our Engineering department works carefully with the engine and generator manufacturers to select the proper package for your irrigation applications. Each unit is performance tested in our factory testing facilities.

Our air-cooled line of generator units are powered by Deutz diesel engines. Each generator unit features our rugged steel platform skid with options for an easy attachable axle, tongue, and front and rear stabilizer jacks. All generator units offer vibration isolation and safety shutdown. Various aluminum fuel tanks are available with compactness of design in mind.

Let RAINBOW be the name you trust for reliable irrigation power!

Engine and Generator Specifications Detailed on Back

Standard Features

- * Diesel Engine
- * Generator - Close Coupled
- * Fabricated Steel Frame
- * Vibration Isolators
- * Shock-Mounted Instrument Panel
- * Air Cleaner
- * Engine Oil
- * Electric Starter
- * Alternator
- * Muffler
- * Raincap
- * Oil Pressure Safety Shutdown
- * Temperature Safety Shutdown
